# WONDERLAB

## Brief

Hurst Joinery Projects were appointed to work directly with the National Science and Media Museum in Bradford on its £1.8m interactive Wonderlab Gallery.

Including more than 20 permanent exhibits, Wonderlab explores the science of light, sound and perception through state-of-the-art, hands-on activities, including:

- » The UK's first permanent Time Twister screen
- » The world's first permanent 3d-printed zoetrope
- » Selfies timed exactly to the moment a water droplet splashes
- » Sound Bite: listen to music through your teeth

## Result

Working as Principal Contractor for the project, Hurst Joinery Projects supplied bespoke joinery elements as part of the Wonderlab gallery.

The items produced included: a musical laser tunnel entrance, a 6ft sphere with spectacular recordings of the surface of the sun and earth a giant 15m long pink echo tube and an 8ft tall mirror maze

## Items Produced

- » Musical laser tunnel entrance
- » 6ft sphere with spectacular recordings of the surface of the sun and earth
- » 15m long pink echo tube
- » 8ft tall mirror maze
